

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Indiana's Telephone Privacy law has improved my time at home by allowing me to spend more time with my family. I used to receive 10 calls per week, and I now I receive less than 1 per week. Most of the phone calls were during my supper time with my family. With the less phone calls I receive I am able to talk more with my family and find out about how their day went. Please reconsider your implementations of this law.
Thank you for your time.
